ADIVAN's CD/DVD Combo tester is designed to control quality of CD & DVD of all norms.

This QC Tester is based on two independent Windows 2000 systems. The Windows 2000 settings are optimized for the QC-Software.

The user friendly interface makes it easy to use even for an inexperienced operator.

The CD drive measures for E11, E12, E31, BLER, C1BERL, E21, E32, E42 and C2BERL.

The DVD drive measure for PIE, PIF, PI and POF digital errors along with analog signals such as reflectivity, asymmetry, I14 and I14/I14H.

This combo tester brings the power of testing to one more phase of the DVD manufacturing process.
