XP4-X-PD System

Media Services Group has further enhanced its services to the optical disc industry by becoming the North American Sales Agent for Dri-Air Industries Inc. Dri-Air is the manufacturer of plastics drying and loading solutions since 1974. Over 10,000 drying systems have been sold worldwide.

MSG and Dri-Air's new partnership for the optical disc industry will help you select the best high

performance dryer for your application. Dri-Air's optical disc line of portable dryers includes stainless steel construction and HEPA filtration for the demanding industry needs.

Dri-Air's optical disc line can be configured to provide dry material from 1 to 4 machines, with closed loop conveyance system, making it ideal for manufacturing cells. MSG's proven experience will assist you in the design and installation of the conveyance system for reliable, trouble free operation. The entire package, dryer, hopper and loader is built on a compact floor frame, saving valuable floor space. The smallest HPD dryer is as compact as 25" x 39".

Give us a call to discuss your next project needs. We look forward to assisting your business now, and to being a part of your success in the future!
