Media Services Group is your one stop solution to the Optical Disc Market. We offer a variety of services including new and used equipment sales, technical service support, spare parts sales, as well as replication services for all your optical disc needs.

We continue to assist companies both large and small in the optical industry. With over 50 years of combined experience in this industry, MSG has developed many strong relationships with our customers. Media Services Group has been servicing some of our clients for over 10 years. We are always looking forward to enhance our relationships by providing quality services and meeting specific needs.

In 2006, Media Services Group continued to expand its services to better serve our market place. MSG became the authorized First Light Technology / Steag Hamatech spare parts & service office by purchasing all intellectual rights from Steag Hamatech. We keep approximately 1000 different spare and wear parts in stock in our facility.

NEW ! MSG has expanded its product line to include high quality optical grade polycarbonate resin. ITOCHU Chemicals America, Inc. (ICAI) recently expanded its sales presence by appointing Media Services Group LLC as its sales agent for selling Mitsubishi / Formosa polycarbonate resins.

NEW ! Check us out for more information concerning the very innovative AutoTec Digital AG digital printing systems. These transfer stations require no inks, no screens, no plates, and can manufacture up to 300,000 discs per day! Media Services Group is the North American Service office for AutoTec Digital AG.

NEW ! Media Services Group has announced a cooperative agreement whereby MSG will represent technotrans, a leading supplier of galvanic equipment, in the North American region. technotrans is know for producing high quality equipment and has been approved for both HD DVD and Blue Ray technology.

We are fully committed to servicing the media industry with high quality products. Media Services Group is an experienced U.S. optical disc industry supplier that can fulfill all of your equipment needs. Give us a call to discuss your next project needs. We look forward to assist your business now, and to being a part of its success in the future!
